

Foreign Bodies

Oceania and the Science of Race 1750-1940

Edited by Bronwen Douglas and Chris Ballard

From the 18th century, Oceania became the principal laboratory of raciology for scholars, voyagers, and colonizers alike. By juxtaposing encounters and theory, this magisterial book explores the semantics of human difference in all its emotional, intellectual, religious, and practical dimensions. The argument developed is subtle, engrossing, and gives the paradigm of 'race' its full use value. *Foreign Bodies* is a model of analysis and erudition from which historians of science and everyone interested in intercultural relations will greatly profit.
